

Unnikrishnan V P

MERN Stack Developer

unniytman@gmail.com | +91 8848853516 | www.unnijsx.online | Kannur, Kerala

Professional Summary

Detail-oriented and motivated MERN Stack Developer with experience in designing and building full-stack applications. Skilled in developing scalable APIs, responsive user interfaces, and integrating cloud services. Currently enhancing expertise in DevOps practices, AWS, and Linux-based deployments.

Key Competencies

- Full-Stack Development: MERN Stack (MongoDB, Express, React, Node.js), REST APIs
- Frontend Skills: Interactive UI Design, Responsive Web Design, JavaScript (ES6+), HTML5, CSS3
- Backend & Databases: Node.js, Express.js, MongoDB, MySQL (Basics)
- Tools & Platforms: Git, GitHub, Postman, AWS (Basics), Linux
- Other Skills: Problem Solving, Critical Thinking, Agile & Scrum Practices

Professional Experience

MERN Stack Developer – Srishti Innovative

April 2025 – Present

- Conducted training sessions on MERN stack technologies, mentoring new developers.
- Designed and delivered hands-on projects to enhance practical learning for trainees.
- Developed and maintained client full-stack web applications with a focus on scalability and performance.
- Performed code reviews and provided technical support to ensure clean, maintainable codebases.

Projects

- Job Portal (MERN Stack)

Developed a job portal application enabling job seekers and recruiters to connect.

Implemented user authentication, role-based access, and responsive UI. Integrated CRUD functionalities and optimized database queries for performance.

- Department Automation (Django)

Created a web application to digitalize departmental manual tasks, including student management and batch-wise semester progress tracking. Focused on usability and reducing manual workload.

- Student Management System (MERN Stack)

Built a student attendance tracker and report generator with the MERN stack. Implemented features for attendance marking, report generation, and streamlined data workflows, reducing manual effort and improving efficiency.

- DC-Shop (MERN Stack + Discord.js E-Commerce App)

Created a full-stack e-commerce application using the MERN stack integrated with Discord.js for notifications and community interaction. Implemented product listings, cart functionality, and secure JWT-based authentication. Designed a responsive UI for seamless shopping while enabling Discord integration for order updates and real-time alerts.

Education

- Bachelor of Computer Applications (BCA) – Kannur University, Kerala | 2021 – 2024
- Higher Secondary Education – Kerala Board of Higher Secondary Education | 2019 – 2021
- High School Education – Board of Public Examinations, Kerala | 2019

Certifications

- MERN Stack Intern – Riss Technologies (Oct 2024 – Jan 2025)

Languages

- English – Speak & Write (Intermediate)
- Malayalam – Native
- Tamil – Speak (Basic)
- Hindi – Speak & Write (Basic)
